**PA Diversity
Network's Photo Project....
225 Same-Sex
Couples Facing Inequality**

Pennsylvania Diversity Network's
PHOTO PROJECT
200 SAME SEX COUPLES:
FACING INEQUALITY

PROJECT STATS

* There are 225 Couples in this Project to date.
 More same-sex couples are always needed.

* This Project was begun in February, 2006.
 In many cases the number of years together
 now includes an additional year.

Photos of 200 (+) local same-sex couples
 serve to remind the mainstream public
 of the discrimination and inequality
 our community faces every day
 due to the lack of PA State and Federal
 recognition of our relationships.

 couples representing the greater

"This sort of marriage is not in the best interest of children." "God has a plan for marriage and this isn't it." "Allowing this kind of marriage will pave the way for all sorts of moral depravity." -- 1960s comments against interracial marriage by far right extremists. Interracial marriage was illegal in many US States until the Loving vs. The State of Virginia Supreme Court decision in 1967. At that time, only 30% of US citizens supported interracial marriage. Currently over 60% of US citizens support legal rights for same-sex couples.

The State Representative of one of the participants in this project told him that Pennsylvania was a good state for health care and support of senior citizens. He also said that he supported the constitutional amendment and suggested that gays should just leave the state. The project participant replied, "I'm a physical therapist who works with the elderly, if I leave the state who is going to take care of the senior citizens I care for?"
 Among these 188 same-sex couples, 75 of the partners are healthcare specialists.
